

Press Release

## **MPC Capital completes EUR 70 million fundraising for its Offshore Service Vessel platform with Eurazeo as lead investor**

- Equity fundraising is led by the European investment group Eurazeo and a European family office.
- Demand for offshore service vessels is expected to increase significantly, driven by the rapid expansion of the offshore renewable energy sector.

Hamburg/Paris, 18 February 2025 – The investment and asset manager MPC Capital (Deutsche Börse, ISIN DE000A1TNWJ4) announces that Eurazeo and a large European family office are investing in MPC Capital's recently launched platform for Offshore Service Vessels. The platform was initiated by a joint venture of MPC Capital and O.S. Energy ("MPC OSE Offshore") to develop, build and manage service vessels which are specifically designed to operate in offshore wind farms.

Eurazeo's equity investment is made by Eurazeo Transition Infrastructure Fund ("ETIF"), a SFDR Article 9 fund with a sustainable investment strategy focusing on the transition of essential infrastructure to a low-carbon economy. This represents the seventh investment of ETIF allowing it to participate in the development and growth of the European offshore wind sector. This operation benefits from support from the European Union under the InvestEU Fund.

Constantin Baack, CEO of MPC Capital AG said: "We are very pleased to work together with top-tier investors which have a dedicated focus on infrastructure investments related to the energy transition. It is a perfect fit, as we can offer a unique investment platform in a structural growth market. We look forward to making our investment platform a great success and jointly servicing the quickly evolving offshore renewable energy industry in the coming years."

Martin Sichelkow, Partner and Co-Head Infrastructure at Eurazeo added: "We are delighted to invest in MPC OSE Offshore, a company set to play a key role in servicing and supporting the European offshore renewable energy industry. The quality of the partners and the growth prospects of the market make the company a key component of the development of the offshore wind industry in Europe, facilitating the transition to a low-carbon economy."

### **About MPC Capital AG ([www.mpc-capital.com](http://www.mpc-capital.com))**
